

SOFTWARE DEVELOPER

PROGRAMMING | MOBILE & WEB DEVELOPMENT | TECHNICAL SUPPORT

- Experienced software developer with skills in diverse applications, interfaces, and information systems.
- Proficient in Dart, Kotlin, Java, JavaScript, TypeScript, Python, and SQL, with hands-on experience across Flutter, React, the MERN stack, and Angular; databases (MongoDB, SQLite); and cloud platforms (Firebase, AWS, Azure)
- Strong knowledge and experience in object-oriented programming, SOLID design principles, design patterns (MVVM, Provider, Bloc), and RESTful API integration.
- Hands-on experience in hardware diagnostics and repair, software installation and maintenance, and help desk/service desk support across Windows environments.
- Proven experience with version control systems such as Git/GitHub
- Strong communication skills in English.

TECHNICAL SKILLS

Languages/Frameworks: Dart, Java, Kotlin, Swift, JavaScript, TypeScript, Python, PHP, SQL, Flutter, React, Node.js, Express.js, Angular, Bootstrap, WordPress.

Tools/Technologies: Android Studio, VS Code, Xcode, Firebase, AWS, Azure, MongoDB, SQLite, Git/GitHub, Postman, Figma, Jira, Trello, Windows, Microsoft 365.

IT Support/Systems: Hardware Diagnostics & Repair, OS & Software Installation/Maintenance, Help Desk/Service Desk Support, System Troubleshooting

Work Experience

Student Researcher (Mobile App Development)

January 2025 – August 2025

WIMTACH Centennial College — Toronto, ON

- Built and deployed multiple cross-platform mobile applications end-to-end using Flutter and Dart, from UI implementation through release.
- Architected app logic around SOLID principles and object-oriented design, keeping the codebase modular and easy to extend as new features were added.
- Integrated 10+ RESTful APIs within a 4-person agile research team, enabling core app functionality and backend-frontend data flow.
- Applied state-management patterns (Provider, Bloc) to improve UI responsiveness and reduce unnecessary re-renders.
- Ran QA testing cycles and incorporated user feedback to resolve usability issues before release.

Frontend Developer & IT Technician

January 2023 – December 2023

Zojie Construction Ltd — Abuja, Nigeria

- Built a government asset auditing system using the MERN stack, collaborating with a cross-functional team of 10+ developers and field staff to deliver and maintain the platform.
- Traveled to and supervised asset tagging operations across multiple Nigerian states, training new staff on tagging procedures and system use while ensuring data accuracy and compliance.

- Provided onsite IT technician support, including Zebra printer setup/troubleshooting and software installation across field and office locations.

Flutter Developer (Intern)

March 2022 – November 2022

WOCA Tech Solutions — Abuja, Nigeria

- Interned on the development team for Catholic Pay, a mobile payment app, working alongside senior developers and UI/UX designers using Flutter and Dart.
- Implemented and shipped features for the app's payment system, contributing production code to the Catholic Pay codebase.
- Assisted with code debugging and participated in code reviews and daily standups within an agile team.

IT Technician / Front Desk Representative

January 2021 – December 2021

FCT Internal Revenue Service (NYSC) — Abuja, Nigeria

- Provided IT technician/service desk support for the first 6 months — resolving help desk tickets, performing software installations and system updates, and handling hardware repairs.
- Transitioned to a front desk representative role for the remaining 6 months, processing Taxpayer Identification Number (TIN) registrations and generating tax receipts for individuals and registered businesses.
- Gained cross-functional experience spanning technical support and public-facing administrative service during a year-long national service (NYSC) placement.

Front-End Web Developer (Industrial Training)

March 2018 – December 2018

Blue Inc Services — Abuja, Nigeria

- Built and revamped WordPress websites for client businesses as part of a development team, using PHP, JavaScript, and Elementor.
- Edited and prepared images for web use in Photoshop to support site design and branding.
- Managed website hosting via cPanel, including creating backups for multiple client sites.
- Purchased and configured domain names on the company's hosting platform (WhoGoHost) for client website launches.

IT Technician Intern

January 2017 – June 2017

Universal Basic Education Commission (UBEC) — Nigeria

- Installed tracking software and operating systems across 300+ newly deployed computers for the organization.
- Assisted with hardware replacements and responded to server issues as part of on-call IT support.
- Performed routine hardware maintenance, including printer toner and cartridge replacement.
- Supported staff with preparing PowerPoint presentations for internal use.

EDUCATION

Software Engineering Technology (Advanced Diploma)

Centennial College — Toronto, ON

CGPA 3.735/4.0

April 2024 – December 2025

Bachelor of Science, Computer and Mathematical Sciences

Crawford University — Ogun State, Nigeria

August 2016 – November 2020

CERTIFICATIONS AND TRAINING

- Aptech Java Programming 2
- WIMTACH / Blue Salt Hackathon – Certificate of Participation
- CompTIA A+ 1 & 2—(in progress)
- CompTIA Network+ (in progress)
- ITIL Foundation
- AWS Certified Cloud Practitioner
- Meta Front-End Developer Professional Certificate (Coursera)

OTHER WORK EXPERIENCE

Produce Staff

September 2025 – Present

Independent City Market — Toronto, ON

- Stocked and organized produce shelves, maintaining quality and freshness standards.
- Assisted customers with product inquiries and requests, contributing to positive customer satisfaction.
- Supported order processing and restocking to maintain consistent inventory levels.

Gym Attendant

May 2024 - December 2024

CCSAI Centennial College — Toronto, ON

- Checked students in and out and monitored gym usage during open hours to ensure a safe environment for facility users.
- Restocked supplies and performed routine safety checks on fitness equipment.
- Cleaned and sanitized equipment after student use to maintain hygiene and operational standards.
