SOFTWARE ENGINEER | MOBILE & FRONTEND DEVELOPMENT

API Integration | Object-Oriented Programming | SOLID Principles | Cross-Platform Systems

Professional Summary

Results-driven software engineer experienced in building cross-platform and web applications. Strong understanding of object-oriented programming, SOLID design principles, and design patterns (MVVM, Provider, Bloc). Skilled in Flutter, Dart, Java, Kotlin, React, and modern frontend tools. Adept at API integration, state management, and user-focused system design. Collaborative and detail-oriented professional experienced in agile teams. Certified in multiple Microsoft Cloud fundamentals (Azure, AI, Data, Security, Power Platform).

Technical Skills

Languages: Dart, Java, Kotlin, Swift (basic), JavaScript, TypeScript, Python, SQL

Frameworks: Flutter, React, Bootstrap, WordPress, React js, Angular,

Tools & Platforms: Android Studio, VS Code, Xcode, Firebase, AWS, Azure, Git/GitHub, MongoDB, SQLite, Postman, Figma, Jira, Trello

Core Competencies: Object-Oriented Design, API Integration, Cross-Platform Deployment, State Management, Agile Collaboration, Test-Driven Development

PROFESSIONAL EXPERIENCE

WIMTACH, Centennial College—Toronto, ON
Flutter Developer | January 2025–August 2025

- Developed and deployed multiple cross-platform mobile applications using Flutter and Dart.
- Applied object-oriented programming and SOLID design to maintain a scalable, modular architecture.
- Collaborated within a 4-person agile team to integrate over 10 RESTful APIs, improving app functionality by 25%.
- Enhanced app responsiveness and usability through design pattern implementation, achieving a 30% performance boost.
- Executed QA testing and implemented feedback, reducing usability issues by 35% and increasing satisfaction by 40%.

WOCA Tech Solutions—Abuja, Nigeria
Software Engineer (Flutter Frontend) | June 2023–December 2023

- Designed and developed cross-platform mobile applications using Flutter.
- Utilised OOP and state management to optimise UI performance and maintain clean code architecture.
- Integrated third-party RESTful APIs for seamless backend communication and improved reliability.
- Collaborated with backend developers and product teams to align software functions with business objectives.

Blue Inc Services – Abuja, Nigeria
Front-End Web Developer | March 2018 – December 2018

- Developed custom WordPress themes and plugins using PHP and JavaScript.
- Optimized website performance, achieving improved Core Web Vitals scores.
- Integrated third-party APIs into WordPress-based applications.
- Built responsive, mobile-first websites using Elementor and custom CSS.

Loblaws—Toronto, ON
Produce Staff | September 2025 – Present

- Managed over 30 daily produce displays, ensuring quality, safety, and adherence to FIFO standards.

- Reduced waste by 15% through improved stock rotation.
- Recognized by management for maintaining top product quality and exceptional customer service.

EDUCATION

Software Engineering Technology (Advanced Diploma)
Centennial College—Toronto, ON | April 2024 - December 2025

Bachelor of Science, Computer and Mathematical Sciences
Crawford University—Ogun State, Nigeria | August 2016 - November 2020.

CERTIFICATIONS

- Microsoft Certified: AZ-900, AI-900, DP-900, SC-900, PL-900
- Google Africa Developer Scholarship – Android Development (Andela)
- Aptech Java Programming 2
- WIMTACH / Blue Salt Hackathon – Certificate of Participation

ACHIEVEMENTS

- Improved cross-platform app responsiveness and accessibility by 30% at WIMTACH.
- Recognised by Loblaws management for display quality and customer experience excellence
- Capstone Project: Developed a student result management system for registration, grading, and secure access
